It's very easy to use for everyone and it is designed to make the PDFs and presentations even more interesting than they usually are. Slide Ninja: Easy to use, but easy to overuse By Helena Bell Slide Ninja is what it sounds like, a PowerPoint to PDF converter. The features of the program sound slightly overwhelming, but once you dive in, you'll realize they're a lot more simplified and user-friendly than they first appear. On the surface, Slide Ninja is a simple tool that enables users to convert slides into PDF documents, which means that they will be more accessible to those with visual impairments. Unfortunately, there's a bigger problem. Slide Ninja is designed to be used as a PowerPoint and PDF converter. It manages to do this, but it does it in such a way that doesn't make it any easier for someone who doesn't want to rely on the tool. Slide Ninja is designed to be used as a PowerPoint and PDF converter. It manages to do this, but it does it in such a way that doesn't make it any easier for someone who doesn't want to rely on the tool. In terms of functionality, the program is nothing special. It's simple to use, but as with many other PowerPoint slide converters, the one thing that's lacking is that the user doesn't have complete control over their slides. They can only convert the PowerPoint and PDF files as they are, so they can't save their PowerPoint files in a way that they want. The tool also doesn't include any
