
Android 8.1 ROM For Samsung Galaxy S5 ##TOP##

Steps to install Android 8.1 Oreo on Galaxy S5 [crDroidAndroid-8.1 ROM] I just updated my Samsung S5 phone to the latest version of Android Oreo. After installing, it has an error when the phone does not respond. I can't do anything except reboot. What should I do to fix this? Is there any way to fix this? I found some posts on how to fix various Android errors. I already tried one on my phone and it didn't work Is there any way to fix this?
